Each question provides source material from another author and a sample of student writing. The test taker must determine whether the student version is word-for-word plagiarism, paraphrasing plagiarism, or not plagiarism. Many questions exemplify subtle forms of plagiarism which represent incomplete or incorrect understanding of plagiarism, carelessness, or attempts to disguise actual plagiarism.

I have studied the pages of the "How to Recognize Plagiarism" tutorial site. After doing so, I have taken the test available on the site. I am confident that I know what plagiarism is and how to avoid it. If I had questions after finishing the tutorial, this document confirms that I have sought help from my academic advisor and I do now understand what plagiarism is and how to avoid it.

**I understand that there will be no acceptable excuse for plagiarism if it is discovered in my work.**

Instructors can check the validity of this Certificate at this Web address:

<https://www.indiana.edu/~academy/firstPrinciples/certificationTests/certificateValidatio>

This will require entry of unique information from this Certificate.

The test taker can also do this, to view this Certificate again.

Instructors should note that there is no practical way of determining whether the student above is indeed the one who took the test, unless it is taken under proctored conditions.

Also, Certificates with the same Test ID, but with different printed names, should be questioned. There are literally trillions of possible test ID's, so no two Certificates should have the same test ID.
